## 6' Main Street Park Bench Features

- Ergonomically Designed Park Bench with vertical steel slats and a powder coat finish
- All-steel heavy duty construction:
  - Sturdy 1/8" thick x 2" wide galvanneal slats are securely welded to a 1" schedule 40 pipe at the top & bottom of the seat. Legs are constructed of 1 1/4" x 14 gauge steel tubing.
- Fully assembled
- Pre drilled mounting holes in feet (Anchoring hardware included)
- Mounted on skids to insure trouble-free shipping
- Bench is 72" long X 34" high x 24" deep x 17" seat height
- Optional Center Anti-Vagrant Arm Rest is Available
- Weight: 85 pounds
- Our durable Super TGIC powder coat paint Zinc Advantage system

### Zinc Advantage Process Details:

Zinc rich primer & Super TGIC powder coat Finishing operations.

- 1. Sand blasts each unit down to shiny metal.
- 2. Clean and hand inspects each unit.
- 3. Powder coat with 70 % zinc rich epoxy resin primer.
- 4. Partially bake the primer.
- 5. Powder coat with SUPER TGIC Polyester finish coat.
- 6. Final bake, creating a molecular bond between the steel, primer and finish coat.
- 7. Each part is tested by a Xylene test to insure a complete cure.

### Advantages:

1. A very tough durable finish with 5 times the fade resistance of standard TGIC powder coatings with a 3H pencil hardness. (All test conducted in South Florida.)
2. If scratched through to the metal, the zinc rich primer greatly reduce rust and the potential for the migration of rust.
3. This system is cured and each unit test for cure so many types of paint used for graffiti can be clean with mild solvents.

**Our paint manufacturer's Zinc rich primer TGIC Polyester out lasts all major competitors on the 4000 hour salt spray test per ASTM B117. Detailed reports available by request.**
