Before assembly, please make sure all fasteners are included.

72 - #12 x 2" Flat Head Phillips Screw

4 - #12 x 1-1/2" Pan Head Phillips Screw

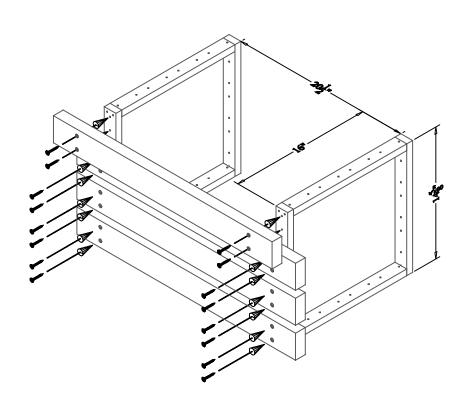

8 - 1/4" Flat Washer

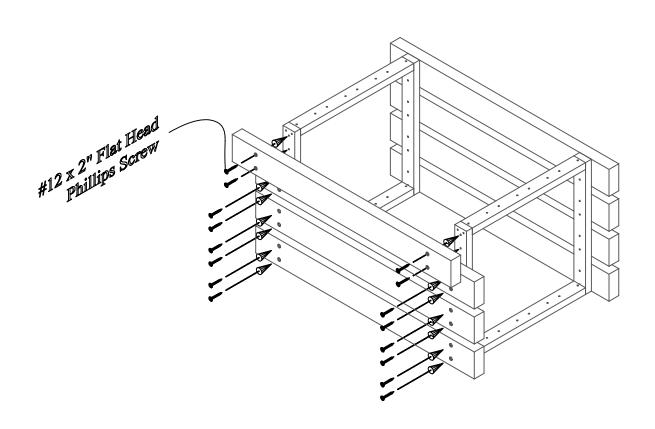

Also needed for this assembly will be the following materials:

1 - #3 Phillips Drive Bit

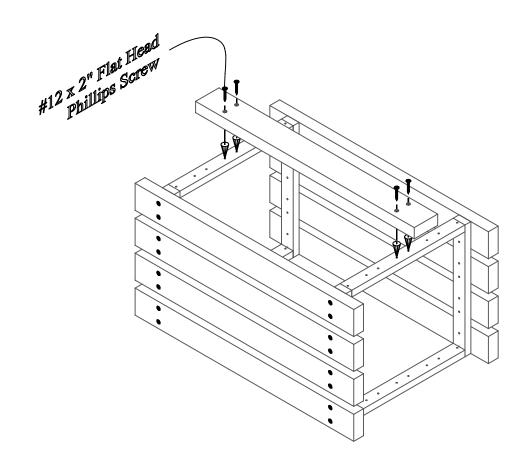

Step #1:

Place the (2) two Frame Rings on edge with the long edge on a flat surface as shown in the diagram above. One at a time, place (4) four Side Boards in position making sure the holes line up with the pre-drilled pilot holes in the Frame Rings. Fasten using (1) one 2" Flat Head Phillips Screw per hole.

Step #2:

Repeat Step #1 for the opposite side.

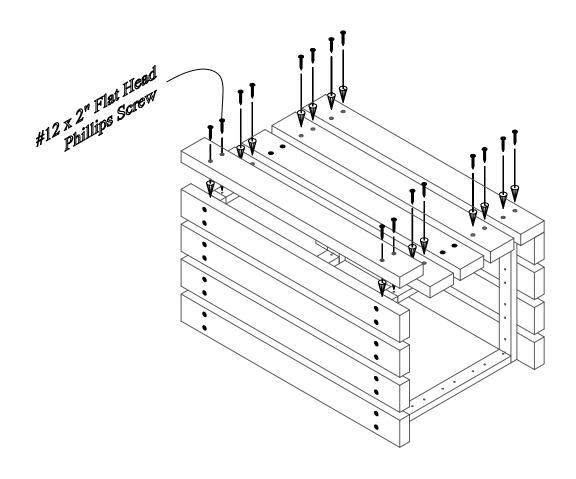

Step #3:

Place (1) one Side Board w/ Pilot Holes in the center position making sure the holes line up with the pre-drilled pilot holes in the Frame Rings. Fasten using (1) one 2" Flat Head Phillips Screw per hole.

Step #4:

One at a time, place (4) four Side Boards in position making sure the holes line up with the pre-drilled pilot holes in the Frame Rings. Fasten using (1) one 2" Flat Head Phillips Screw per hole.

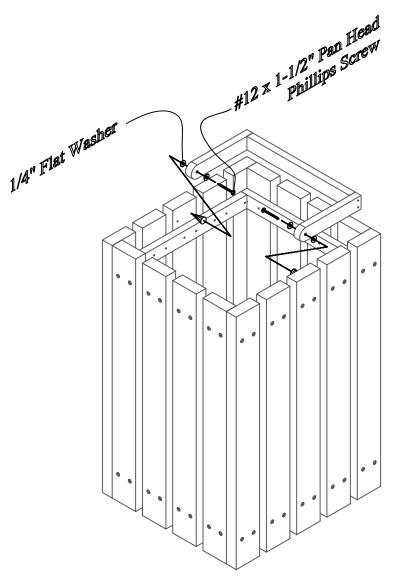

Step #5:

Repeat Step #3 and #4 for opposite side.

Step #6:

Turn the trash receptacle upright onto its base. Please use caution while moving. At this point in assembly the receptacle will weigh approximately 66 pounds.

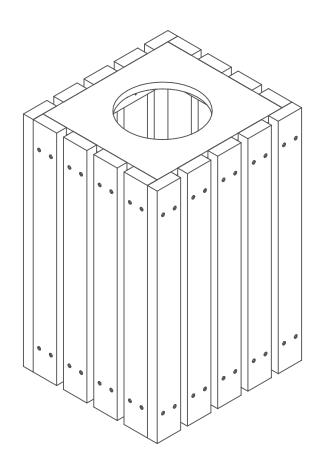

Step #7:

Place the Bag Holder in the trash receptacle, using (1) one 1/4" Flat Washer on each side of the pre-drilled holes, fasten with (1) one 1-1/2" Pan Head Phillips Screw in to each pre-drilled pilot holes in the Side Boards.

Step #8:

Repeat Step #7 for the opposite side.

Step #9:

To place the lid on the trash receptacle, rest it on the inner ledge of the side walls.
