Before assembly, please make sure all components are included.

(1) - One Bag Holder Ring
GSSA-T40-C-01

(1) - One Frame Ring
GSSA-TRPB-A-01

(1) - One Rain Cap
GSSA-T40C-A-01

FP - Fastener Pack

(1) - One Fastener Pack
FP-T40C-CU-02

(4) - Four Side Panels
GSSA-T40-A-01

A - Side Panel

A - Side Panel

(1) - One Trash can Liner
KC-S-7856

Before assembly, please make sure all fasteners are included.

16 - #12 x 2 1/2" Flat Head Phillips Screw

Also needed for this assembly will be the following materials:

1 - #3 Phillips Drive Bit

Step #1:

Lay a Side Panel as shown. Place the Bag Holder Ring at the top of the panel as shown in the above diagram. Place the Frame Ring at the bottom of the panel. Making sure the holes line up with the pre-drilled pilot holes in the panel. Fasten using (1) one 2-1/2" pan head screw per hole. Repeat for the bottom of the panel.

Step #2:

Place another Side Panel beside the previous panel so that it touches as displayed in the diagram above. Gently turn the side panel with the rings installed onto the new side panel. Making sure the holes line up with the pre-drilled pilot holes in the panel. Fasten using (1) one 2-1/2" flat head phillips screw per hole. Repeat this step for the rest of the Side Panels.

Step #3:

Turn the trash receptacle upright onto its base. Please use caution while moving. At this point in assembly the receptacle will weigh approximately 145 pounds. Place the Trash liner inside the base.

Step #4:

To place the lid on the trash receptacle, rest it on the inner ledge of the side walls.
